Learn about your prescription drug coverage

Understanding your pharmacy benefits may save you time and money.

Find a pharmacy

With access to thousands of pharmacies in our nationwide network, you can get the medications you need for your physical and mental well-being.

Refer to the [Plan Document Notice](#) included in this booklet for instructions on how to find a pharmacy in your network.

Get extra support

Specialty medicines help people with complex conditions and may require special shipping or storage. With CVS Specialty® pharmacy medicine and support services, you'll get reliable and secure delivery at no additional cost.

Call **1-800-237-2767 (TTY: 711)** or visit [CVSSpecialty.com](https://www.cvs.com/specialty) to learn more.

Medicines conveniently delivered to you

CVS Caremark® Mail Service Pharmacy provides home-delivery services for the medications you take regularly. Avoid trips to the pharmacy by ordering your medication on the phone or by mail.

Visit [AetnaMedicare.com/RxDelivery](https://www.aetna.com/RxDelivery) or call the number on your Aetna® member ID card for more information.

Get a 90-day supply

Are there medicines you take regularly to maintain your health? With a 90-day supply, you can save time, and potentially money, by refilling your prescriptions just once every three months.

Talk with your doctor to see if a **90-day supply** is right for you.

Medication therapy management

If you qualify, our Medication Therapy Management program helps you and your doctor manage your medicines. A pharmacist will review your medications and talk with you about drug therapy, side effects or any questions you may have.

Your formulary drug list

We have a broad list of covered drugs. It's always good to check what your prescription drugs will cost. To do this, you will need to know what tier your drugs are on.

Refer to the [Plan Document Notice](#) in this booklet to find out how to access your plan's formulary.

5

Schedule your annual wellness exam

Did you know your primary care provider (PCP) can build a personalized prevention plan for you to help you stay healthy? It's part of the annual wellness exam, offered to you at no additional cost once every 12 months. Just know you may have to pay for any tests your doctor orders.

Give your PCP a call to schedule your visit or to learn more.

Your PCP and you

It's important to have a solid support system. Your PCP can coordinate your care to help you better manage your health. Check your EOC to see if your plan requires you to have a PCP on file with us. Your EOC will also tell you if you can see providers both in and out of our network and still be covered.

Have questions or need help?

Call the Member Services number on your Aetna® member ID card.

You can count on us because **healthier happens together®**.

See Evidence of Coverage for a complete description of plan benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by service area. For mail-order, you can get prescription drugs shipped to your home through the network mail-order delivery program. Typically, mail-order drugs arrive within 10 days.
