Help your Aetna patients save on lab costs — refer them to preferred and in-network labs

Your Aetna patients generally pay a lot more money out of pocket when they have testing done at out-of-network labs. To help them save money, refer them to in-network labs. Below are some of the preferred labs for your Aetna patients.

Preferred labs

Quest Diagnostics is our national preferred lab. Your patients save when they use them. Quest Diagnostics and their affiliates offer a wide range of testing services — from routine blood tests to complex gene-based and molecular testing. The following Quest Diagnostics affiliates are also preferred labs in our network:

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).
Out-of-network labs

Referring your patients to the out-of-network labs below will cause them to pay more out of pocket. It is also not consistent with Aetna policy regarding the use of in-network laboratory services for most plans.

The following table shows how much more your patients can pay when they use out-of-network labs:

<table>
<thead>
<tr>
<th></th>
<th>In-network lab</th>
<th>In-network hospital lab</th>
<th>Out-of-network lab</th>
</tr>
